1.0 GENERAL

1.1 This material requisition covers the design, fabrication , inspection, testing, packing and delivery of columns as listed here under.

1.2 The equipment shall be in strict accordance with the requirements specified in this material requisition and attached documents.

1.3 Vendor shall be responsible for mechanical design of the equipments in accordance with requirements of this material requisition.

1.4 In case of conflict between requirements of applicable documents of this material requisition vendor has to bring this to purchaser's attention for clarification before proceeding.

As a general rule, the following sequence of procedure shall be followed.

- 1- Data Sheet
- 2- Material Requisition
- 3- Purchaser Specification
- 4- Codes & Standards

1.5 Columns shall be designed as self-supporting unless otherwise specified and its stability shall be checked based on the following load condition.

1.5.1 Erection condition (complete with all accessories such as ladders, platforms, piping, ...) under full design wind load.

1.5.2 Operating condition (corroded, complete with all accessories) under full design wind or earth - quake load whichever is greater.

1.5.3 Test condition based on 33% wind load and any earthquake load disregarded.

1.6 Two years spare parts list shall be submitted in SPIR form.

1.7 The applicable specification are those which are attached to this material requisition, any referred specification in supplied specifications shall be brought to purchaser's attention before considering as deleted.

2.0 SCOPE OF WORK & SUPPLY

2.1 SCOPE OF WORK

Design, provision of materials, fabrication, test & inspection, painting and packing.

REV.

SUPERSEDED BY	1	3	5	REQUISITION No.	DATE
REVISION No.	2	4	6	MRQ-4-PV-201/0	2.2000

2.2 Scope of Supply

2.2.1 The following items are in vendor scope of supply.

ITEM	TAG NO.	SERVICE	NO. REQ'D
1	50-T-2021	MAIN WASHER	1
2	50-T-2022	RECTIFIER	1
3	50-T-2024	AFTER WASHER	1
4	50-T-3031	DEGASSING TOWER	1
5	50-T-3032	ACETYLENE WASHER	1
6	50-T-3034	COOLING COLUMN	1
7	50-T-4041	PROPYNE DISTILLATION COLUMN	1
8	50-T-4045	FINAL DISTILLATION COLUMN	1

2.2.2 Any accessories which are specified in data sheets such as earthing lug, insulation supports, tray and packing support, ladder and platforms.

2.2.3 Spare parts for commissioning and start up, as a minimum 15% of bolts/nuts (min. 2 sets), 100% of gasket for flanges and 10% internal stud bolts (min. 2 sets).

2.2.4 Priced List of two years spare parts.

2.2.5 Documentation as per "vendor data requirements".

2.2.6 Special tools (if any).

Any special tools which are necessary for assembling and/or dismantling and/or operation shall be included in the scope of supply.

REV.	SUPERSEDED BY	1	3	5	REQUISITION No.	DATE
	REVISION No.	2	4	6	MRQ-4-PV-201/0	2.2000

2.2.7 Column internals will be delivered by purchaser to vendor for installation, any required supports for internal installation shall be provided and fabricated by vendor.

3.0 APPLICABLE CODES AND STANDARDS

The latest edition of the following codes & standards :

- ASME : Boiler and pressure vessels code, Sec. II/Sec. VIII Div. 1/
Sec. V/Sec. IX
- ANSI B16.5 : Steel pipe flanges and flanged fittings
- ANSI B16.11 : Forged steel fittings, socket welding and threaded
- ASME B16.47 : Large diameter steel flange
- ASTM : Materials
- UBC : Uniform building code
- WRC 107 : Welding research council
- NPCS : National petrochemical company standards

4.0 GUARANTEE

The vendor shall undertake to remedy or replace any defects resulting from faulty design, faulty materials or faulty workmanship, free of charge.

Guarantee period is 18 months from the date of operation (certificate of performance test & provisional acceptance of the plant) or 39 months from the date of shipment whichever occurs first.

5.0 INSPECTION AND TESTING

Inspection and testing shall be as per specification No. EGS-4-PV-027/0 and related data sheets.

REV.	SUPERSEDED BY	1		3		5		REQUISITION No.	DATE
	REVISION No.	2		4		6		MRQ-4-PV-201/0	2.2000

6.0 VENDOR DATA REQUIREMENTS

1. In the following table, the required vendor data, drawings and documents are listed as follows :

Column I) are the documents to be supplied along with vendor quotation.

Column II) are the documents to be supplied after order placement.

Column III) are the final and certified documents.

2. All documents, preliminary or final, are to be stamped and signed by the supplier.
3. Failure in dispatch of the required documents shall cause the supply to be considered as unfulfilled.
4. Purchaser's approval does not relieve vendor, in any way, from his obligation to fulfill the requirements of the purchase order documents.
5. All vendor drawings and documents shall be in English language.
6. All drawings and documents are to be identified as follows :

OWNER'S NAME : A.K.P.C.

CONTRACTOR : CHAGALESH CONSULTING ENGINEERS

PLANT : BUTADIENE PLANT

PLANT SITE : BANDAR IMAM

7.0 PACKING AND MARKING

Packing and marking procedure shall be as per specification No. MGS-4-PQ-003/0.

8.0 OTHER REQUIREMENTS

1) Secrecy

The inquiry documents are the property of CHAGALESH and shall be considered as confidential. Bidder is not allowed to pass on any information, documents, or whatsoever regarding this inquiry to any third party without purchaser's written approval.

If such approval has been given, it is the responsibility of bidder that the third party involved shall also adhere strictly to the requirements and condition of this inquiry.

2) Return of documents

Should bidder be notified that purchaser does not accept his quotation, unless otherwise the complete inquiry documents including specification shall promptly be returned to purchaser.

3) Deviation

Vendor's proposal shall be prepared in strict compliance with the requirements set forth in the relevant specifications of tender documents.

Vendor shall include in his proposal the statement of compliance with the tender documents should vendor wish to submit exception to the requirements of tender documents. They shall be submitted for Purchaser's approval.

4) Price breakdown

Breakdown price of following items shall be included in the proposal, as well as total price.

- 1) Material and Fabrication.
- 2) 2 years operational spare parts
- 3) Packing & transportation
- 4) Other fee (if any)
